

Spill Control & Tote Containment

Add another layer of safety to your operation through spill control drums and spill containment pallets

Single Drum Part #: 99029

- 12-gallon spill capacity
- 2000 lb. load capacity
- Removable poly grating for fast, easy cleanup
- Low profile for ease of unloading, optional ramp
- EPA compliant
- Constructed of high-density polyethylene for superior strength and corrosion resistance

2-Drum Part #: 99028

- Snap 2 together for 4 drums or a tote
- 30-gallon spill capacity
- 5000 lb. load capacity
- Removable poly grating for fast, easy cleanup
- Low profile for ease of unloading, optional ramp
- EPA compliant
- Constructed of high-density polyethylene for superior strength and corrosion resistance

Tote Containment Pallet Part #: 99101

- 365-gallon spill capacity
- Low profile, 28" overall height & forkliftable
- Small footprint - 62" x 62" unit requires minimal floor space
- All polyethylene construction - offers excellent chemical resistance and will not rust or corrode
- Removable poly grating for fast, easy cleanup
- EPA compliant
